Textile ERP: APIs ki guide

Front end ke liye | Steps 1, 2a, 2b | 10 October 2026 | Har jawab asal API chala kar liya gaya he

1. Shuru karne se pehle (sirf 3 baaten)

a) Base URL: har API ke aage yeh lagta he: `http://SERVER-ADDRESS:3000/api`
Maslan login ka poora URL: `http://192.168.1.10:3000/api/v1/auth/login` . Asal address backend wala dega.

b) Har request ke header:
`Content-Type: application/json` (jab Body bhejni ho)
`Authorization: Bearer ACCESS-TOKEN` (login ke baad har API men; sirf jahan "Token nahi chahiye" likha ho wahan nahi)

c) CORS: aapka front end jis address par chalta he (maslan `http://localhost:5173`) woh backend wale ko bata den, woh use allow karega. Warna browser "CORS error" dega.

2. Login ka poora tareeqa (sab se zaroori)

Kaun	Login screen par kya likhega
Super admin	**Super admins ka code** (sab super admins ka ek hi, maslan `R4TW-9KXE`) + Email + Password
Company ka admin (client admin) aur us ke users	**Company code** (maslan `K7QM-4XPA`) + Email + Password

Login screen par 3 khane rakhen: **Company code** (zaroori, sab ke liye), Email, Password. Login ka jawab batata he:

- `user.userType` : kaun sa dashboard kholna he. `SUPER_ADMIN` = super admin dashboard, `CLIENT_ADMIN` = company admin dashboard, `USER` = user dashboard.
- `company` : kis company ka he (super admin ke liye `null`).
- `services` : menu men sirf yahi dikhayen. `access` = `FULL` (add/edit kar sakta he) ya `VIEW` (sirf dekh aur report).

Token ka khel (simple)

1. Login par 2 token milte hen: `accessToken` (lamba, 15 minute chalta he) aur `refreshToken` (chhota, 7 din). Dono save karen (maslan localStorage).
2. Har API ke saath header: `Authorization: Bearer accessToken`
3. Kisi API se **401** aaye: `/v1/auth/refresh` ko refreshToken bhejen. **Naya** accessToken aur **naya** refreshToken dono save karen (purana refreshToken ab band he). Phir wahi API dobara chalayen.
4. Refresh bhi 401 de: tokens mita kar login screen par bhej den.
5. Refresh ek waqt men **sirf ek dafa** chalayen. Ek purana refreshToken do dafa gaya to server security ke liye us user ke sab login khatam kar deta he.
6. App khulte waqt `GET /v1/auth/me` chalayen: is se user, company aur menu (services) dobara mil jate hen.

3. Errors (sab ek hi shakal men aate hen)

```
{
  "error": {
    "code": "VALIDATION_FAILED",
    "message": "Validation failed",
    "details": [
      {
        "field": "body.email",
        "message": "email must be a valid email"
      },
      {
        "field": "body.password",
        "message": "password is not allowed to be empty"
      }
    ]
  }
}
```

Status	Matlab	Front end kya kare
400	Form ka data ghalat	`details[].field` batata he kaun sa khana (`body.email` = email). Wahan `message` dikhayen.
401	Login nahi / token khatam / ghalat password	Refresh karen (upar step 3), warna login screen.
403	Is user ko ijazat nahi	Woh screen/button chhupa den.
404	Record nahi mila	"Nahi mila" dikhayen.
409	Pehle se mojood (maslan email)	message dikhayen.
422	Qaide ke khilaf (maslan band service kisi company ko dena)	message dikhayen.
429	Bohat zyada koshishen	"15 minute baad koshish karen".
500	Server ki ghalti	"Kuch ghalat ho gaya" + `requestId` dikhayen.

> Body men sirf woh fields bhejen jo is guide men likhi hen. Koi faltu field bheji to 400 aata he. Password ka qaida: kam se kam 10 harf, ek capital, ek small, ek number.

4. Login aur apna account (sab ke liye)

1 **Server chal raha he?** Token nahi chahiye

GET `/api/health`

Jawab: **200**

```
{
  "status": "ok"
}
```

2 Login: super admin

Token nahi chahiye

Super admins ka code bhejna (company code wale khane men). Yeh code sab super admins ka ek hi he.

POST `/api/v1/auth/login`

Body (bhejna he)

```
{
  "companyCode": "KXTC-AGHV",
  "email": "admin@example.com",
  "password": "Admin-Pass-123"
}
```

Jawab: **200**

```
{
  "accessToken": "eyJhbGciOiJI...",
  "refreshToken": "IOIvM3BNN6nR...",
  "tokenType": "Bearer",
  "user": {
    "id": "7afc49df-a6ce-4638-88bb-e340f6810731",
    "name": "Fahad Ayaz",
    "email": "admin@example.com",
    "userType": "SUPER_ADMIN",
    "companyId": null,
    "isActive": true,
    "lastLoginAt": "2026-10-12T09:41:54.627Z",
    "createdAt": "2026-10-12T09:41:54.216Z"
  },
  "company": null,
  "services": []
}
```

3 Login: company admin / company user

Token nahi chahiye

Company code + email + password. Code chhote harfon men ya dash ke baghair likha ho (`k7qm4xpa`) to bhi chal jata he.

POST `/api/v1/auth/login`

Body (bhejna he)

```
{
  "companyCode": "YDS7-JH6M",
  "email": "waqas@example.com",
  "password": "Waqas-Pass-123"
}
```

Jawab: **200**

```
{
  "accessToken": "eyJhbGciOiJI...",
  "refreshToken": "ZalCYJt3M6Yr...",
  "tokenType": "Bearer",
  "user": {
    "id": "6bd44fb8-a534-4fb3-ad95-e97f6a13816a",
    "name": "Waqas Owais",
    "email": "waqas@example.com",
    "userType": "CLIENT_ADMIN",
    "companyId": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
    "isActive": true,
    "lastLoginAt": "2026-10-12T09:41:56.599Z",
    "createdAt": "2026-10-12T09:41:56.130Z"
  },
  "company": {
    "id": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
    "name": "Waqas Textile",
    "code": "YDS7-JH6M"
  },
  "services": [
    {
      "id": "afbc010d-1794-4065-a151-1ac32ce72bb4",
      "code": "SINGEING",
      "name": "Singeing",
      "kind": "PROCESS",
      "access": "FULL"
    },
    {
      "id": "1206c885-1ba6-4d9a-898a-17ac221461db",
      "code": "DYEING",
      "name": "Dyeing",
      "kind": "PROCESS",
      "access": "FULL"
    },
    {
      "id": "d435ebdb-c7fc-4806-80fb-288a6592abe1",
      "code": "PRINTING",
      "name": "Printing",
      "kind": "PROCESS",
      "access": "FULL"
    }
  ]
}
```

> Ghalat code, email ya password par hamesha yahi ek jawab aata he (401): "Company code, email or password is incorrect". 5 ghalat koshishon par account 15 minute ke liye band ho jata he.

4 Main kon hun (app khulte waqt) Sab log

Login jaisa jawab, bas tokens ke baghair. Super admin ke liye company null aur services [] aata he.

GET `/api/v1/auth/me`

Jawab: **200**

```
{
  "user": {
    "id": "6bd44fb8-a534-4fb3-ad95-e97f6a13816a",
    "name": "Waqas Owais",
    "email": "waqas@example.com",
    "userType": "CLIENT_ADMIN",
    "companyId": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
    "isActive": true,
    "lastLoginAt": "2026-10-12T09:41:56.599Z",
    "createdAt": "2026-10-12T09:41:56.130Z"
  },
  "company": {
    "id": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
    "name": "Waqas Textile",
    "code": "YDS7-JH6M"
  },
  "services": [
    {
      "id": "afbc010d-1794-4065-a151-1ac32ce72bb4",
      "code": "SINGEING",
      "name": "Singeing",
      "kind": "PROCESS",
      "access": "FULL"
    },
    {
      "id": "1206c885-1ba6-4d9a-898a-17ac221461db",
      "code": "DYEING",
      "name": "Dyeing",
      "kind": "PROCESS",
      "access": "FULL"
    },
    {
      "id": "d435ebdb-c7fc-4806-80fb-288a6592abe1",
      "code": "PRINTING",
      "name": "Printing",
      "kind": "PROCESS",
      "access": "FULL"
    }
  ]
}
```

5 Naya token (401 aane par) Token nahi chahiye

POST `/api/v1/auth/refresh`

Body (bhejna he)

```
{
  "refreshToken": "LOGIN-WALA-refreshToken"
}
```

Jawab: **200**

```
{
  "accessToken": "eyJhbGciOiJI...",
  "refreshToken": "uZTQzvz7FHAs...",
  "tokenType": "Bearer"
}
```

6 Apna password badalna Sab log

POST `/api/v1/auth/change-password`

Body (bhejna he)

```
{
  "currentPassword": "Purana-Pass-123",
  "newPassword": "Naya-Pass-456"
}
```

Jawab: **204**

Khaali jawab. Iska matlab kaam ho gaya.

> Is ke baad sab devices se logout ho jata he. User ko login screen par bhej den.

7 Logout (is device se) Token nahi chahiye

POST `/api/v1/auth/logout`

Body (bhejna he)

```
{
  "refreshToken": "refreshToken"
}
```

Jawab: **204**

Khaali jawab. Iska matlab kaam ho gaya.

> Phir apne paas se dono tokens mita den. Sab devices se logout: `POST /v1/auth/logout-all` (token chahiye, Body nahi).

5. Super admins (sirf super admin)

8 Super admins ki list Super admin

Query men chahen to: `search=ali`, `isActive=true`, `page`, `limit` (max 100). `total` se pages banayen.

GET `/api/v1/super-admins?page=1&limit=25`

Jawab: **200**

```
{
  "data": [
    {
      "id": "7afc49df-a6ce-4638-88bb-e340f6810731",
      "name": "Fahad Ayaz",
      "email": "admin@example.com",
      "userType": "SUPER_ADMIN",
      "companyId": null,
      "isActive": true,
      "lastLoginAt": "2026-10-12T09:41:54.627Z",
      "createdAt": "2026-10-12T09:41:54.216Z"
    },
    {
      "id": "164f56c3-78a3-4078-8ca9-47c7fdcd6511",
      "name": "Ali Khan",
      "email": "ali@example.com",
      "userType": "SUPER_ADMIN",
      "companyId": null,
      "isActive": true,
      "lastLoginAt": null,
      "createdAt": "2026-10-12T09:41:55.369Z"
    }
  ],
  "page": 1,
  "limit": 25,
  "total": 2
}
```

9 Naya super admin

Super admin

POST `/api/v1/super-admins`

Body (bhejna he)

```
{
  "name": "Ali Khan",
  "email": "ali@example.com",
  "password": "Ali-Pass-12345"
}
```

Jawab: **201**

```
{
  "id": "164f56c3-78a3-4078-8ca9-47c7fdcd6511",
  "name": "Ali Khan",
  "email": "ali@example.com",
  "userType": "SUPER_ADMIN",
  "companyId": null,
  "isActive": true,
  "lastLoginAt": null,
  "createdAt": "2026-10-12T09:41:55.369Z"
}
```

10 Super admin ka naam badalna / band karna

Super admin

Sirf `name` aur/ya `isActive`. Email ya password yahan nahi. Koi apne aap ko band nahi kar sakta.

PATCH `/api/v1/super-admins/:id`

Body (bhejna he)

```
{
  "name": "Ali Raza",
  "isActive": false
}
```

Jawab: **200**

```
{
  "id": "164f56c3-78a3-4078-8ca9-47c7fdcd6511",
  "name": "Ali Raza",
  "email": "ali@example.com",
  "userType": "SUPER_ADMIN",
  "companyId": null,
  "isActive": false,
  "lastLoginAt": null,
  "createdAt": "2026-10-12T09:41:55.369Z"
}
```

11 Super admin ka password reset Super admin

POST `/api/v1/super-admins/:id/reset-password`

Body (bhejna he)

```
{
  "newPassword": "Reset-Pass-123"
}
```

Jawab: **204**

Khaali jawab. Iska matlab kaam ho gaya.

12 Super admins ka login code dekhna Super admin

Yeh code sab super admins login par likhte hen.

GET `/api/v1/super-admins/login-code`

Jawab: **200**

```
{
  "code": "KXTC-AGHV"
}
```

13 Super admins ka naya login code Super admin

Body nahi. Code kisi ghalat bande tak pahunch jaye to naya ban jata he. **Purana code foran band**: baqi super admins ko naya code bata den (jo pehle se login hen woh chalte rehte hen).

POST `/api/v1/super-admins/login-code/new`

Jawab: **200**

```
{
  "code": "KUGJ-5P73"
}
```

6. Services (sirf super admin)

Platform ki 15 services pehle se bani hen: Grey Store, SO / Travel Card, Singeing, Dyeing, Dryer, Finishing, Stitching, Cutting, Printing, Stenter, Compacting, Folding, Chemical Store, Packing List, Gate Pass.

14 Sab services ki list Super admin

Yahan se har service ki `id` milti he. (Jawab men sirf pehli 3 dikhayi hen.) Sirf services chahiye, modules nahi: `?kind=PROCESS,FOLDING`.

GET `/api/v1/services`

Jawab: **200**

```
{
  "data": [
    {
      "id": "a054d89d-3183-4a4e-8db4-87fb0a65856a",
      "code": "GREY_STORE",
      "name": "Grey Store",
      "kind": "MODULE",
      "tracksColour": true,
      "isActive": true,
      "sortOrder": 10
    },
    {
      "id": "dc113456-0458-4238-9da2-8256458d8a1a",
      "code": "SO_CARD",
      "name": "SO / Travel Card",
      "kind": "MODULE",
      "tracksColour": true,
      "isActive": true,
      "sortOrder": 20
    },
    {
      "id": "afbc010d-1794-4065-a151-1ac32ce72bb4",
      "code": "SINGEING",
      "name": "Singeing",
      "kind": "PROCESS",
      "tracksColour": true,
      "isActive": true,
      "sortOrder": 30
    }
  ]
}
```

15 Nayi service add karna Super admin

POST `/api/v1/services`

Body (bhejna he)

```
{
  "code": "WASHING",
  "name": "Washing",
  "kind": "PROCESS",
  "tracksColour": true
}
```

- `code` : capital harf, number aur _ (maslan WASHING). Baad men nahi badalta.
- `kind` : PROCESS (department), MODULE (screen), FOLDING
- `tracksColour` : job sheet par colour ka khana chahiye ya nahi

Jawab: 201

```
{
  "id": "d382b29c-d1a8-49f3-954b-ae998bc7bacd",
  "code": "WASHING",
  "name": "Washing",
  "kind": "PROCESS",
  "tracksColour": true,
  "isActive": true,
  "sortOrder": 160
}
```

16 Service badalna / band karna Super admin

Kuch bhi in men se: `name` , `isActive` , `tracksColour` , `sortOrder` . Band (`isActive:false`) service har company ke menu se foran hat jati he.

PATCH `/api/v1/services/:id`

Body (bhejna he)

```
{
  "name": "Washing Plant"
}
```

Jawab: 200

```
{
  "id": "d382b29c-d1a8-49f3-954b-ae998bc7bacd",
  "code": "WASHING",
  "name": "Washing Plant",
  "kind": "PROCESS",
  "tracksColour": true,
  "isActive": true,
  "sortOrder": 160
}
```

17 Service kin companies ke paas he

Super admin

`GET` `/api/v1/services/:id/companies`

Jawab: **200**

```
{
  "service": {
    "id": "d435ebdb-c7fc-4806-80fb-288a6592abe1",
    "code": "PRINTING",
    "name": "Printing",
    "kind": "PROCESS",
    "tracksColour": true,
    "isActive": true,
    "sortOrder": 90
  },
  "companies": [
    {
      "id": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
      "name": "Waqas Textile",
      "code": "YWPS-4J83",
      "isActive": true
    }
  ]
}
```

18 Ek service kai companies ko dena Super admin

PUT `/api/v1/services/:id/companies`

Body (bhejna he)

```
{
  "companyIds": [
    "COMPANY-ID-1",
    "COMPANY-ID-2"
  ]
}
```

Jawab: **200**

```
{
  "service": {
    "id": "d435ebdb-c7fc-4806-80fb-288a6592abe1",
    "code": "PRINTING",
    "name": "Printing",
    "kind": "PROCESS",
    "tracksColour": true,
    "isActive": true,
    "sortOrder": 90
  },
  "companies": [
    {
      "id": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
      "name": "Waqas Textile",
      "code": "YWPS-4J83",
      "isActive": true
    }
  ]
}
```

> **Poori list** bhejen: list wali companies ko service mil jati he, baqi sab se hat jati he. `[]` = sab se hata do.
> Screen: service page par har company ka checkbox.

7. Companies (sirf super admin)

19 Company register karna Super admin

Company aur us ka pehla admin ek saath bante hen. Company ko **MODULE wali services khud mil jati hen** (Grey Store, SO card, Chemical Store, Packing, Gate Pass). Baqi services toggle se (API 20a).

POST `/api/v1/companies`

Body (bhejna he)

```
{
  "name": "Waqas Textile",
  "contactPerson": "Waqas Owais",
  "phone": "0300-1234567",
  "address": "Faisalabad",
  "admin": {
    "name": "Waqas Owais",
    "email": "waqas@example.com",
    "password": "Waqas-Pass-123"
  }
}
```

- `code` **na bhejen**: server khud random aur unique code banata he, maslan `K7QM-4XPA`, taake koi andaza na laga sake. Jawab men `code` aata he: yahi company admin ko den.
- `admin` : company ka pehla admin. Yahi company code se login karega.

Jawab: 201

```
{
  "id": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",
  "name": "Waqas Textile",
  "code": "YWPS-4J83",

  "createdAt": "2026-10-12T09:41:59.554Z"
}
```

24b Company ke admin ka password reset Super admin

POST `/api/v1/companies/:id/admins/:userId/reset-password`

Body (bhejna he)

```
{
  "newPassword": "Fresh-Pass-123"
}
```

Jawab: **204**

Khaali jawab. Iska matlab kaam ho gaya.

24c Company delete karna Super admin

Body nahi. Company list se hat jati he, us ke sab log foran logout aur login band. Data mita nahi jata (audit log aur record mahfooz rehte hen). Front end "Kya aap waqai delete karna chahte hen?" poochh kar chalaye.

DELETE `/api/v1/companies/:id`

Jawab: **204**

Khaali jawab. Iska matlab kaam ho gaya.

24 Company ka naya code Super admin

Body nahi. Agar code kisi ghalat bande tak pahunch jaye to naya random code ban jata he. **Purana code foran band**: company ke log naye code se login karenge (jo pehle se login hen woh chalte rehte hen).

POST `/api/v1/companies/:id/new-code`

Jawab: **200**

```
{
  "id": "950d2afc-e26c-4952-9da9-0cc8f3cbb8b5",

    }
  ],
  "userCount": 1
}
```

8. Company ke users (sirf company admin)

Company admin (client admin) apni company ke users banata he aur har user ko company ki services men se kuch deta he: `FULL` (add/edit) ya `VIEW` (sirf dekhna aur report). User usi **company code** se, apni email aur password ke saath login karta he. Company admin sirf apni company ke users dekh sakta he.

Kaun si services de sakta he: company admin ke login ya `GET /v1/auth/me` ke jawab men `services` = company ki sab services. Wahan se har ek ki `id` le kar `serviceId` men bhejen.

25 Naya user banana Company admin

POST `/api/v1/users`

Body (bhejna he)

```
{
  "name": "Ali Operator",
  "email": "ali@example.com",
  "password": "Ali-Pass-12345",
  "services": [
    {
      "serviceId": "1206c885-1ba6-4d9a-898a-17ac221461db",
      "access": "FULL"
    },
    {
      "serviceId": "f20ccbb1-5074-47c1-95ba-1ffa205312b1",
      "access": "VIEW"
    }
  ]
}
```

- `services` (optional): `[{ serviceId, access }]` . `access` = `FULL` ya `VIEW` . Na bhejen to user ko koi service nahi milti (baad men API 29 se).
- Sirf woh services de sakta he jo company ke paas hen, warna 422 (neeche).
- Ek company men ek email ek hi dafa. Doosri company men wahi email chal sakti he.

32 User ka naam badalna / band karna Company admin

Sirf `name` aur/ya `isActive`. `isActive:false` par user foran logout aur login band.

PATCH `/api/v1/users/:id`

Body (bhejna he)

```
{
  "name": "Ali Raza",
  "isActive": true
}
```

Jawab: **200**

```
{
  "id": "a5ab86af-4e9b-407b-a04e-743c051a23c8",
  "name": "Ali Raza",
  "email": "ali@example.com",

}
```

33 User ka password reset Company admin

POST `/api/v1/users/:id/reset-password`

Body (bhejna he)

```
{
  "newPassword": "Ali-New-Pass-1"
}
```

Jawab: **204**

Khaali jawab. Iska matlab kaam ho gaya.

> User har device se logout ho jata he; naye password se login kare.

> Jab super admin company se koi service wapas le leta he, to us company ke sab users se bhi woh service khud hat jati he.

9. Audit log (sirf super admin)

34 Kis ne kya kiya Super admin

Naya pehle. Query (sab optional): `action`, `actorId`, `companyId`, `entityType`, `entityId`, `from`, `to` (tareekh), `page`, `limit`.

GET `/api/v1/audit-logs?page=1&limit=2`

Jawab: **200**

```
{
  "data": [
    {
      "id": "30",
      "at": "2026-10-12T09:41:59.960Z",

10. Ijazat na ho to

35 Company admin ne super admin wali API kholi — Sab log

`GET` `/api/v1/companies`

Jawab: **403**

```
{
  "error": {
    "code": "FORBIDDEN",
    "message": "Not allowed"
  }
}
```

36 User ne company admin wali API kholi — Sab log

`GET` `/api/v1/users`

Jawab: **403**

```
{
  "error": {
    "code": "FORBIDDEN",
    "message": "Not allowed"
  }
}
```

37 Token ke baghair — Token nahi chahiye

`GET` `/api/v1/auth/me`

Jawab: **401**

```
{
  "error": {
    "code": "UNAUTHORIZED",
    "message": "Not signed in"
  }
}
```

11. Tayyar JavaScript function (copy kar len)

Yeh function token khud lagata he, 401 par khud refresh karta he, aur refresh bhi fail ho to login par bhej deta he.

```
const BASE_URL = 'http://SERVER-ADDRESS:3000/api';
let refreshing = null;

async function api(path, options = {}) {
  const send = () => fetch(BASE_URL + path, {
    method: options.method || 'GET',
    headers: {
      'Content-Type': 'application/json',
      Authorization: 'Bearer ' + localStorage.getItem('accessToken'),
    },
    body: options.body ? JSON.stringify(options.body) : undefined,
  });
```

```
  let res = await send();
  if (res.status === 401 && localStorage.getItem('refreshToken')) {
    refreshing = refreshing || fetch(BASE_URL + '/v1/auth/refresh', {
      method: 'POST',
      headers: { 'Content-Type': 'application/json' },
      body: JSON.stringify({ refreshToken: localStorage.getItem('refreshToken') }),
    }).then(async (r) => {
      if (!r.ok) throw new Error('logged out');
      const t = await r.json();
      localStorage.setItem('accessToken', t.accessToken);
      localStorage.setItem('refreshToken', t.refreshToken);
    }).finally(() => { refreshing = null; });
    try { await refreshing; res = await send(); }
    catch { localStorage.clear(); window.location.href = '/login'; return; }
  }
  const data = res.status === 204 ? null : await res.json();
  if (!res.ok) throw data.error;   // { code, message, details }
  return data;
}

// Login
async function login(companyCode, email, password) {
  const res = await fetch(BASE_URL + '/v1/auth/login', {
    method: 'POST',
    headers: { 'Content-Type': 'application/json' },
    body: JSON.stringify({ companyCode, email, password }),
  });
  const data = await res.json();
  if (!res.ok) throw data.error;
  localStorage.setItem('accessToken', data.accessToken);
  localStorage.setItem('refreshToken', data.refreshToken);
  return data;   // data.user.userType se dashboard, data.services se menu
}

// Istemal
const me = await api('/v1/auth/me');
const companies = await api('/v1/companies?page=1&limit=25');
await api('/v1/companies', { method: 'POST', body: { name, admin: { name, email, password } } });
await api('/v1/companies/' + id + '/services', { method: 'PUT', body: { serviceIds } });
```

12. Screens jo abhi ban sakti hen

Screen	APIs
Login	2, 3
Header (naam, logout, password badlo)	4, 6, 7
Super admin: Super admins (aur un ka login code)	8, 9, 10, 11, 12, 13
Super admin: Companies list + register	21, 19
Super admin: Company detail (services ke checkbox, band/chalu, naya code)	22, 20, 23, 24, 14
Super admin: Services list (add, band/chalu, companies ke checkbox)	14, 15, 16, 17, 18, 21
Super admin: Audit log	34
Company admin: Users list + naya user	27, 25 (services ke liye 4)
Company admin: User detail (services None/View/Full, band/chalu, password reset)	28, 29, 32, 33

User dashboard	4 (menu = services, har ek ka access)
